Experience

Full-Stack Developer · Salescode.ai Jun 2024 – Present

AI Sales Agent

- Built a **voice ordering agent** handling **10k+ calls/day** with LiveKit and Deepgram.
- Cut median response latency by **42%** by streaming LLM tokens to TTS.
  - Added a **barge-in** detector so callers can interrupt.

SFA Flutter Apps

- Shipped offline-first sync for **3 field-sales apps** used by 2,000 reps.

Projects

Relay — Mac automation agent github.com/asha/relay

- Designed a WebSocket protocol that reduced token usage by **72%**.
- Wrote end-to-end tests with Playwright.

Skills

Go, Python, TypeScript, Kafka, PostgreSQL
